

Purified water & ice, *without* *the bottles.*

Bottleless water coolers and ice machines for Phoenix-area businesses. Water and ice are purified on site, and our team installs and services every machine.

The bottled way

- ✗ Lifting 40-lb jugs onto the cooler
- ✗ Running dry between deliveries
- ✗ Storage lost to full and empty bottles
- ✗ Buying and hauling bagged ice

The BottleFree way

- ✓ Plumbed in, so there's nothing to lift
- ✓ Unlimited purified water on demand
- ✓ Reverse-osmosis purification on site
- ✓ Fresh ice made right where you need it

HOW IT WORKS

No carts. No guesswork. *A rep who sizes it right.*

1. Tell us your needs

Headcount, space and how much water and ice you use.

2. Get a written quote

Our rep recommends equipment and sends a written quote.

3. Professional install

Connected to an existing water line by our team.

4. Ongoing care

We service the equipment we lease.
